

KME AGRI

LOW EMISSION SLURRY SPREADING EQUIPMENT

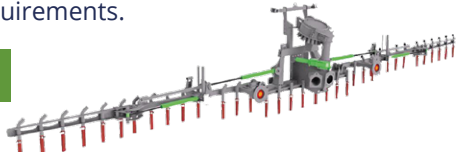

OUR RANGE OF LOW EMISSION SLURRY EQUIPMENT

The KME AGRI range of low emission slurry equipment consists of a range of dribble bars and trailing shoes, various widths and configuration to suit all customers requirements.

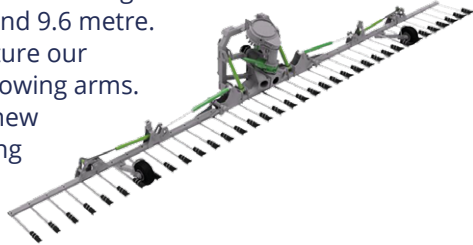

DRIBBLE BARS

Our dribble bars, range in width from 7.5 metres to 12 metres, from umbilical to retrofit. Fitting them to all makes and shapes of tanks, all our dribble bars are chassis mounted, with bespoke brackets for each type of tank.

TRAILING SHOES

Our current trailing shoes range consist of two models 7.5 metre and 9.6 metre. Both machines feature our unique contour following arms. Machine suited to new tanks and retrofitting to existing tanks.

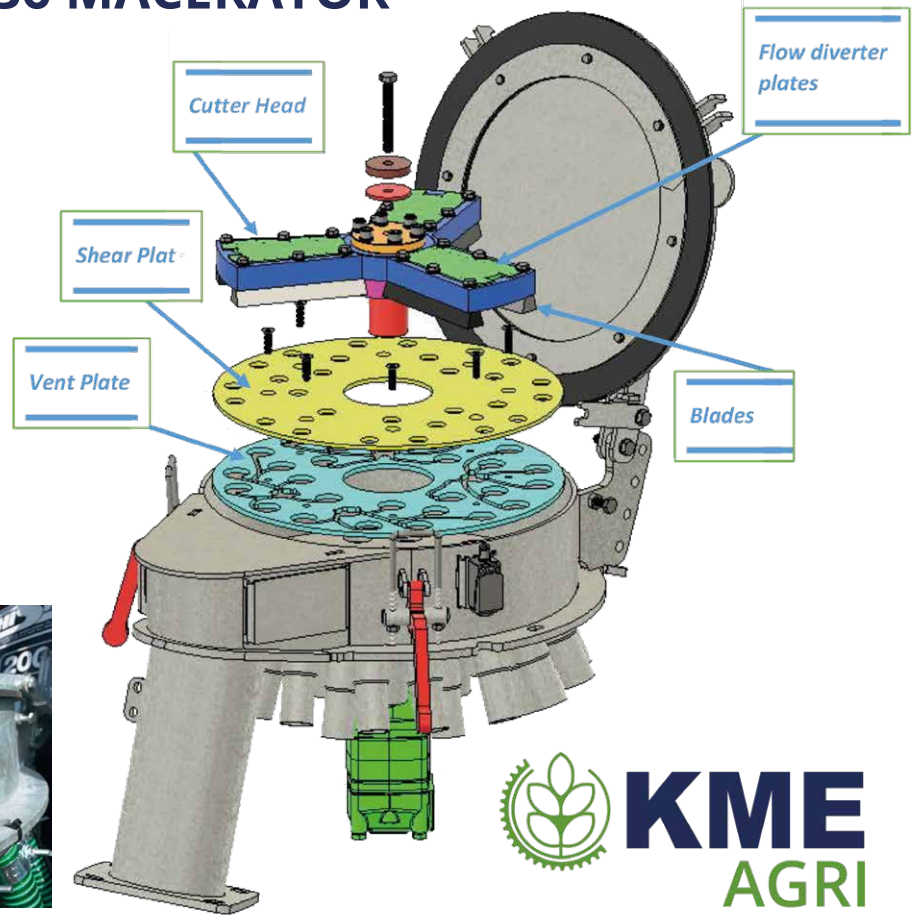

MULTICUT-EASY 28 / 36 MACERATOR

PATENT PENDING EP20210782.7

FEATURES AND BENEFITS

- Design and build quality.
- Optimum distribution across all outlets.
- Industrial leading venting technology
- Integrated cover safety switch.
- Removable flow control plates to reduce forward speed in light slurries.
- Danfoss hydraulic motor.
- Easy maintain and service.
- 6 number double sided blades
- Hardox shear plate.

AGRI

DB-7500 UNI DRIBBLE BAR

LIGHTS, MARKER BOARDS

CHASSIS MOUNTING BRACKETS

SUPPORT ARMS FOR TRANSPORT

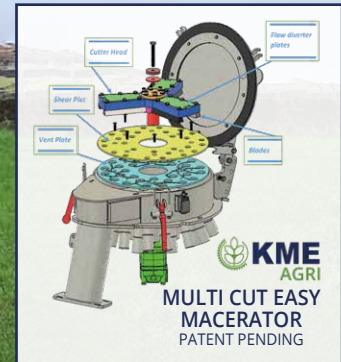

EXISTING FILL POINTS AND SPLASH

SPRING BACK ARMS

LAY FLAT HOISING

DB-7500 UNI DRIBBLE BAR

FEATURES AND BENEFITS

- Design and build quality.
- Close mounting to existing tank and chassis mounting brackets.
- Requires only two number hydraulic spool functions.
- 28 outlet KME Agri multicut - Easy macerator with integrated safety switch.
- Spring protected arms.
- Rear lights and marker boards for improved safety.
- Integrated stone trap.
- Reduces loss and increases ability to utilise slurry on the grazing platform.

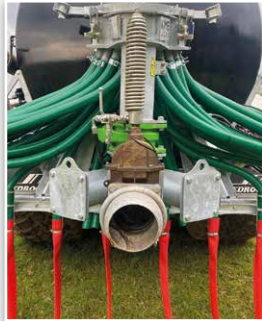

DB-9600 UNI DRIBBLE BAR

LIGHTS, MARKER BOARDS

CHASSIS MOUNTING BRACKETS

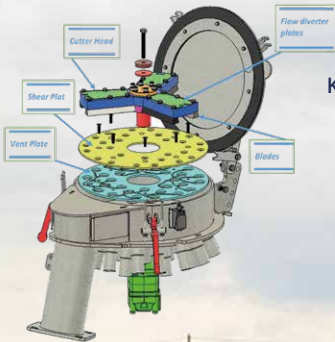

EXISTING FILL POINTS AND SPLASH

DOUBLE FOLDING ARMS

SUPPORT ARMS FOR TRANSPORT

KME AGRI MULTI CUT EASY MACERATOR
PATENT PENDING

LAY FLAT HOISING

HYDRAULIC BRAKE BACK ARMS

DB-9600 UNI DRIBBLE BAR

FEATURES AND BENEFITS

- Design and build quality.
- Close mounting to existing tank and chassis mounting brackets.
- Requires only two number hydraulic spool functions.
- 36 outlet KME Agri multicut - Easy macerator with integrated safety switch.
- Double folding hydraulic break out arms
- Rear lights and marker boards for improved safety.
- Integrated stone trap.
- Reduces loss and increases ability to utilise slurry on the grazing platform.

TS-7500 PRO GLIDE - TS-9600 PRO GLIDE TRAILING SHOES

FEATURES AND BENEFITS

- Design and build quality.
- Close mounting to existing tank and chassis mounting brackets.
- Requires only two number hydraulic spool functions.
- 28 & 36 outlet KME Agri multicut - Easy macerator with integrated safety switch.
- Contour following technology always applying even pressure across all shoes.
- Double folding arms for reduced height on both 9.6 metre and 7.5 metre.
- Rear lights and marker boards for improved safety.
- Integrated stone trap.
- Reduces loss and increases ability to utilise slurry on the grazing platform.
